

- May 30-31
- 48-hr virtual hackathon
- Collaboration with NASA, ESA, JAXA
- Volunteer as an SME: Engage with participants in chat rooms and judge submissions
- [Spaceappschallenge.org](https://spaceappschallenge.org)

Participants solve challenges related to the COVID-19 pandemic using Earth observation data.

- Learning about the virus and its spread using Space-based data
- Local response/change and solution
- Impacts of COVID-19 on the Earth system/Earth system response
- Economic opportunity, impact, and recovery during and following COVID-19
